Scoring On and Off the Field

Soccer Phenom and PC Graduate Miguel Gonzalez

Even for die-hard soccer fans, the college soccer career of Miguel Gonzalez is mind blowing. He has set records that few will be able to match, both at Peninsula College and now at Seattle University, where he is currently a student on a soccer scholarship.

As a Peninsula College Pirate, Miguel set single-season and career scoring records, collecting 34 goals during the 2011 season and finishing his two-year career with 49 goals. He was named NWAACC West Division MVP in both 2010 and 2011.

Now, at Seattle University, Miguel is continuing to rack up the honors. In 2013, he was named to the College Soccer News National Team of the Week for the week of November 18-24, to the WAC All-Tournament team, as WAC Offensive Player of the Year and First Team All-Conference, and also named WAC Offensive Player of the Week for the week of October 14-20. In 2012, in his debut year as a Seattle University player, Miguel played in 17 matches, scored four goals, provided one assist and tallied 50 shots with 13 of them on goal.

> *"...he came to Peninsula College with a lack of academic preparation, he made an immediate impact on the NWAACC and earned his Associate of Arts Degree at an honors level..."*
>
> *— Rick Ross, PC Athletic Director*

Star Performer in the Classroom, Too

For most, success like this on the field would be enough, but not for Miguel. Scholastically, he is also in top form. At Peninsula College, he maintained a 3.7 GPA, and at Seattle University he has more than a 3.0 GPA as a liberal studies major, which he plans to complete this spring. And then? Many feel a draft by the pros is more than likely in his future, and Miguel, himself, hopes to play professional soccer.

But how did such a storied soccer and college career actually start? The beginnings go all the way back to when Miguel was just a young boy. An immigrant from the state of Michoacan in southwest Mexico, Miguel moved to the Pacific Northwest with three brothers, two sisters and his mother when he was eight. The family settled in Yelm, and it was there that his interest in soccer really took root.

"Soccer is big in the Mexican culture," he says. "I grew up watching it on TV almost every weekend, just dreaming of one day being one of those players I saw on television." That and watching his older brother's play clinched it for Miguel. "I just loved playing the sport. It was fun and exciting, and I got to meet great people. I was also pretty good at it," he says.

Setting the Path in High School

Miguel's soccer talents quickly became apparent when he entered Yelm High School, where he was a four-year starter for the Tornadoes. A two-time First Team All-State selection, he helped the varsity team reach the district playoffs in 2007, 2009, and 2010. In 2008, he was named sophomore athlete of the year, and received the team's most inspirational award in 2009.

Miguel says that after high school he had no real plans for playing anywhere. "I had struggled in high school because I thought that education was just not for me. But luckily I got a call from Coach Andrew Chapman who wanted me to come to Peninsula College and play soccer. After talking to my family, we agreed it was the best option. It was either that or staying home to work in order to help my mom and family out."

He Was a Player We Wanted

PC Soccer Coach Andrew Chapman says, “Miguel is a great young man who has tremendous drive to be better. We knew right away when we watched him in high school he was a player we wanted, not only for his talent on the field but because of his personality and respect for other people. At one point Miguel was going to drop out of college because he didn’t think there would be much future for him, but luckily he decided not to. Still, it wasn’t easy. On weekends Miguel would go home to help his family and earn some money, sometimes even working at a farm cutting heads off of chickens. It was hard, but he really stuck with it, and his determination is paying off in big dividends for him. We’re proud of all his accomplishments and to have been a part of his success.”

Knowing that money was tight for Miguel and that he would need financial help to finish college, the Peninsula College Foundation awarded him the E. John and Helen Maier President’s Scholarship in 2011-12. This scholarship specifically supports one of five goals established by the Washington State Board for Community and Technical Colleges (SBCTC) for college students–that special consideration be given to students from a diverse background. That goal states, in part, that “community and technical college programs will serve as the key point of entry into higher education for tens of thousands of people of color and new immigrants to Washington State.”

With the E. John and Helen Maier President’s Scholarship in hand, Miguel was able to finish his degree at Peninsula College and realize that he could be both an athlete and a scholar.

“PC allowed me to grow as both a soccer player and a student,” Miguel says. “Going there made me see that I could get the educational part done, too, if I set my mind to it.”

Excellence in All Dimensions

PC Economics Professor Dr. Daniel Underwood is one of the professors who believed in Miguel and knew he could make it in the classroom as well as the soccer field. “While Miguel was known to the college community as an outstanding athlete on the field, I knew him as an outstanding student in the classroom. He was attentive in class, always prepared, and exhibited an enthusiasm for learning. I will always remember Miguel as living testament to what we should all aspire to in life, and that is excellence in all its dimensions,” Underwood says.

Miguel is quick to give credit to those who helped him succeed at Peninsula College. “As a player, the great coaching and teammates I had helped me gain the confidence and skills that helped me at the next level. PC coaches, faculty and staff were extremely helpful in helping me make the transition from PC to Seattle U. Being surrounded by great people who cared about me and wanted the best for me was great!”

Rick Ross, Director of Athletics and Student Services at Peninsula College, was one of those: “Miguel is one of the most exciting athletes we’ve ever had, in any sport. He is so skilled, and so explosive. He made big things happen in big games and helped us win a championship. He went on to be a star at the NCAA Division I level as well, and I fully expect Miguel to have a professional soccer career.

A Cinderella Story

“Perhaps what makes him so remarkable is that he represents a Cinderella story. He comes from a small town in Western Washington, he came to Peninsula College with a lack of academic preparation, he made an immediate impact on the NWAACC and earned his Associate of Arts Degree at an honors level, and he’s continuing to have tremendous success in both the athletic and academic arenas at Seattle University. He’s also a great role model for young players. He works hard, he’s a team player and he’s humble. He was a model athlete at Peninsula and will very likely land in our Hall of Fame.”

Paying Tuition

Tuition deadline for Spring quarter 2014 is March 13th, 2014.

Tuition for noncredit courses must be paid at the time of registration. For more information on paying tuition, visit http://pencol.edu/financial/payment-options or call (360) 417-6340.

Residency Tuition Policy

For information and application materials, go to www.pencol.edu/admissions/forms-and-documents then Residency Questionnaire.

Military Tuition Policy

Eligible veterans or National Guard members; child and spouse of totally disabled or POW/MIA or deceased eligible veterans or National Guard members can receive reduced rates. The college's Veterans' Service Office, (360) 417-6224, can provide information on qualification requirements or see www.pencol.edu/veterans.

Refund Policy/Schedule

In accordance with RCW 28B.15.605, full refund of tuition and fees will be made to students who withdraw from the college prior to the sixth instructional day of the quarter for which the tuition and fees were paid, or prior to the first class session of noncredit courses.

Fifty percent refund of tuition only will be made to students who withdraw from the college on or after the sixth day of instruction, but within 20 calendar days, including the first scheduled instructional day, of that quarter. The college may cancel courses; in this case, a full refund will be given.

Note: Refund schedule may be different if registered in WAOL class. Please visit http://www.pencol.edu/admissions/academic-calendar for more info.

100% **through April 4, 2014**
50% **through April 18, 2014**

Additional Fees

Laboratory Fee

This fee applies to courses that require the use of equipment and supplies for the purpose of instruction. A $15.00 per class fee is assessed for any five-credit Biology, Botany, Chemistry, Environmental Science, Geology, Geography, Geo Science, Physics, or Zoology class that has an "L" designator. Fees do not apply to online lab courses. The Laboratory Fee is refundable only through the 100% refund period or if the class is cancelled.

Student Self-Assessed Fee

A special student fee voted on by the students and approved by the legislature to raise funds for an addition to the Student Center. The fee is $2.90 per credit, up to a maximun of $29.00 per quarter, and will be charged until the addition is paid off. This fee will follow the same refund schedule as regular tuiton.

Bus Pass Fee

A student-voted fee of $5.00 will be charged each credit taking student to provide bus passes with Clallam County Transit. Excluded are Continuing Education and Contracted courses, and Board-approved tuition waivers. Students who are excluded due to some tuition waivers may individually purchase a bus pass for $5.00. The fee is non-refundable. Bus passes will be available for pick-up at the start of the quarter. Contact the Associated Student Council (ASC) at (360) 417-6432 for more information.

Technical Equipment User Fee (TEUF)

A $3.50 fee per credit is charged to all classes, to a maximum of $52.50 (except for Basic Skills, Family Life Education and online courses). This fee is necessary to adequately support student access to changing technologies in classrooms, labs, learning centers, the Library/Media Center as well as to wi-fi and increased bandwidth for the purpose of instruction and/or research. Technical equipment user's fees are refundable only through the 100% refund period or if the class is cancelled.

Online Courses

The fee is $8.00 per credit and is refundable only through the 100% refund period.

Wellness Center Fee (Fitness)

In Spring Quarter of 2010, students approved a self-assessed fee of $2.00/credit starting Summer Quarter 2011.

Confidentiality of Peninsula College Student Records

The Family Educational Rights and Privacy Act (FERPA) affords you certain rights with respect to your records. They are:

1. The right to inspect and review your education records within 45 days of the day Peninsula College receives a request for access.
   You should submit to the registrar written requests that identify the record(s) you wish to inspect. The registrar will arrange for access and notify you of the time and place where the records may be inspected.
2. The right to request the amendment of your education records that you believe inaccurate or misleading.
   You may ask Peninsula College to amend a record that you believe is inaccurate or misleading. You should write the registrar, clearly identify the part of the record you want changed, and specify why it is inaccurate or misleading. Note: if you wish to request a change of grade that has been recorded correctly on your records, you must follow the grade appeal procedure described in the Student Handbook. If Peninsula College decides to not amend the record as requested, you will be notified and advised of your right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided when you are notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in your education records, except to the extent the FERPA authorized disclosure without consent.
   One exception which permits disclosure without consent is disclosure to college official, including faculty members, with legitimate education interests. A college official is a person employed by Peninsula College in an administrative, supervisory, academic or research, or support staff position (including security, alumni office and development office personnel); a person or company with who Peninsula College has contracted (such as an attorney, auditor, or collection agency); a person serving on the Board of trustees: or student serving on an official committee, such as a disciplinary committee, or assisting another school official in performing his or her tasks. Volunteers and interns serving in any of these capacities are also considered school officials. A college official has a legitimate education interest if the official needs to review an education record to fulfill his or her professional responsibility. Upon request, Peninsula College may disclose education records without consent to official of another school in which you are currently enrolled, receive services, or seek or intend to enroll.
4. The right to prevent disclosure of directory information.
   Peninsula College may release "directory information" concerning a student to the public. Directory information consists of name, address, telephone listing, field of study, weight and height of athletes, most recent previous school attended, photograph, date and place of birth, participation in officially recognized activities and sports, dates of attendance, degrees and awards. In addition, level of education and prior military experience may also be provided to representatives of the department of defense for recruiting purposes.
   If you choose to have Peninsula College not release your directory information, notify the registrar in writing by using the form available in the Enrollment Services Office. You should be aware that asking Peninsula College to withhold directory information may prevent other colleges and employers from receiving information that might be to your advantage.
5. The right to file a complaint with the U. S. Department of Education concerning alleged failures by Peninsula College to comply with the requirements of FERPA.
6. The right to obtain a copy of Peninsula College's student records policy. This policy is available in the Enrollment Services office.

The name and address of the office that administers FERPA is:
Family Policy Compliance Office, U. S. Department of Education
600 Independence Avenue SW, Washington, D. C. 20202-4605

State Support of Higher Education Students

The following information outlines the amount of money that the state of Washington contributes to the cost of students' education through support of basic instructional cost. These figures are accurate as of this printing.

ACADEMIC YEAR 2012-2013	Resident	Nonresident
Instructional cost/FTE student	$6,282	$6,282
Operating fee	$3,217	$8,052
Net instructional support/ FTE student	$3,065	

In addition to state support of the basic instructional costs, students at community colleges also receive state-supported financial aid, including that provided from the local financial aid fund (3. 5%). These amounts are represented as follows:

State Financial Aid per Resident Student FTE	$861	
Institutional Financial Aid Fund per Student FTE	$94	
Total Financial Aid per Student FTE	$955	

This information is furnished to you in accordance with EHB 1501, passed by the 1997 Legislature.

Online Courses

Online class fee: Additional $8 per credit
Online class login: http://pencol.instructure.com

Students can access their courses at any time, using a computer connected to the internet. Computers are available on main campus and extension sites. Online classes have distinct start and end dates and require about 3 hours per credit per week for participation and study time. WAOL quarterly start and end dates vary from Peninsula College dates and are listed in the bulletin course description.

For additional information, including technical requirements and a self-assessment quiz, visit the Peninsula College eLearning website at www.pencol.edu, click on Services then eLearning. Or contact eLearning Coordinator Vicki Sievert, vsievert@pencol.edu or (360) 417-6272.

Students enrolling in their first online class should also enroll in HUMDV 101, Online Classroom Success, to learn how to navigate the course.
