Notes

AAS Degree

Business Administration - Management Emphasis

Program Description

The Business Administration program is designed to allow students to pursue three different career options: Accounting, Management, and Entrepreneurship. The Washington State Workforce Training & Education Coordinating Board reports a skill gap in accounting jobs where the accounting jobs exceed worker supply. Jobs in business administration exist in a wide variety of career paths. Students develop a foundation of knowledge in accounting, management, business, entrepreneurship and application software related to business and communication.

Classroom instruction and practical experiences are combined into a course of study that provides students with broad exposure to the principles and philosophies of business and management. Students can continue their academic studies at Peninsula College in the Bachelor of Applied Management degree (BAS). Please contact the BAS advisor for additional prerequisite requirements at BAS@pencol.edu.

Program Goals

- Prepare students for a variety of business related job opportunities.
- Prepare students for a rapidly changing business environment.
- Measure and assess student learning and implement improvements to ensure a high quality program.
- Monitor the needs of the business community and maintain the relevancy of program curriculum through advisory committee meetings and program reviews.

Special Features

- Interactive training, skill-based assessments, and online digital learning solutions provide timely feedback to enhance learning.
- Short-term certificates of proficiency, which include courses within the program, are offered to provide students benchmarks of achievement leading to degree completion.
- Students can work closely with their advisor for individualized advising to create a personal plan for degree completion.

Student Learning Outcomes

When this program is completed, the student will be able to:

- Prepare and analyze company financial statements
- Prepare analytical Excel schedules to support business decisions
- Apply qualitative and quantitative methods for critical thinking and problem solving
- Formulate a personal code of ethical behavior as it relates to a modern business environment
- Utilize electronic technology, including accessing information from various sources
- Recognize and analyze how general and specific forces shape the

environment of business and decision making

- Demonstrate competency in written and oral communication
- Apply basic computational skills to practical applications
- Communicate in writing for a variety of purposes and audiences
- Demonstrate competencies to succeed in the selected career pathway workplace

Assessment

Students are required to place into the English and math/applied math courses required for this program. Learn more about placement options by visiting the Assessment and Placement website: <http://www.pencol.edu/placement-testing>

Career Opportunities

Graduates with business management skills have found employment opportunities in a variety of business settings. Virtually every industry employs business managers; however, the largest employers of managers are the retail, wholesale, and service industries. The greatest expansion in the job market over the next ten years is expected to occur in the small business sector including employment prospects for business managers. Opportunities for advancement are enhanced by a student's motivation and desire to succeed. The demand for persons trained in this field should remain strong over the next several years.

Potential Positions and Earning

Potential opportunities include careers in the areas of assistant manager, buyer, department manager, management trainee, sales manager, store manager, and supervisor.

For current employment and wage estimates, please visit and search for the relevant occupational term:
