**January 24:** *Watchtower* – 100 minutes  
*Watchtower* is the story of a man and a woman who seek refuge from their pasts and the world in the verdant forests of the Turkish countryside. Hiding away from others—one living at a remote forest fire watchtower, the other in a secluded room at a small roadside bus station—their solitude is soon shattered by a series of fateful events. Once their lives collide, they struggle together in a shared test of the human spirit. In Turkish with English subtitles. Presented as part of Caravanserai, produced by Arts Midwest and co-sponsored by Centrum.

**February 14:** *Chasing Ice* - 75 minutes  
This is the story of one man’s mission to change the tide of history by gathering undeniable evidence of climate change. Using time-lapse cameras, his videos compress years into seconds and capture ancient mountains of ice in motion as they disappear at a breathtaking rate. *Chasing Ice* depicts a heroic photojournalist on a mission to deliver fragile hope to our carbon-powered planet.

**February 21:** *The Whale* – 85 minutes  
The true story of Luna, a young, wild killer whale who is separated from his family, becomes lost, and tries to befriend people on the west coast of Vancouver Island. This documentary explores the ethical and practical questions that arise as people try to help Luna.

**February 28:** (2 films) *Rebirth of the Elwha* (60 minutes) and *River as Spirit* (30 minutes)  
*Rebirth of the Elwha* is a Story of Ancient Values and Modern Stewardship. The film chronicles the truly progressive salmon habitat restoration work undertaken by the Lower Elwha Klallam Tribe, of the Pacific Northwest. This truly visionary effort represents the largest restoration project for salmon recovery ever attempted in the world. More importantly, this is a story of the Klallam People taking into their own hands the future health of their river, the salmon that depend on it, and the survival of their culture.

*River as Spirit* is a meditation on the soul of the Elwha River and the people and the salmon who have been a part of it for thousands of years. Just a week before the historic dam removal work officially began, the filmmakers flew and filmed the length of the river, from its source high in the Olympic Mountains to the mouth at the Strait of Juan de Fuca. This stunning film is set to tribal music, poetry, and narrated in the native Klallam language (with English subtitles).

**March 4**  
*Beneath the Salish Sea: An underwater odyssey through Puget Sound,* this popular cinema documentary is packed with stunning underwater images of the Salish Sea, including orcas and porpoises, and also features the wild stormy seas around Cape Flattery...and more. With filmmaker and BBC cinematographer Florian Graner.

**Foothills Writers Series**

All readings will be on Wednesdays at 12:35 pm in Maier Performance Hall.

His first book, *A Guest in All Your Houses,* was published in 2009. His second, *Rumors of Fallible Gods,* was a Finalist for the Gival Press Poetry Award in both 2010 and 2011.

**March 12**—Kathleen Flennikan

Terry Grasteit

Terry has been creating abstract art most of his life and has shown his work internationally and locally. He creates his art around a feeling, subject, shapes or colors that have caught his interest and imagination and watches the painting evolve. Because his paintings are nonspecific, they allow viewers to create their own stories. His workshops allow for full creative expression and have included beginning and professional artists.

Terry will teach Exploring Abstract Art (see page 3) and a Creativity Workshop (page 13) Winter term.
