“łam really excited about the future. PC is a really cool place to be and has so much to offer a person of any age. It made me feel young and gave me a whole new perspective on life.”

Chris Enges, Multimedia Communications

“I loved being on campus and the flexibility of only having to be there for two or three hours a day, rather than seven or eight,” he said. “It felt like a better fit.”

Anthony Sanders, Bachelor of Applied Science in Applied Management Program

“I would say to folks who are considering college that they have a great opportunity available in their own backyard,” Susie said. “Amazing professors, great campus - sometimes online courses aren’t the best option, and most people our age can’t just pack up and move. It’s all right there. Don’t even hesitate to get started toward a degree.”

Susie Sanders, Bachelor of Applied Science in Applied Management Program

“I thought of it like, ‘this is only two years of my life, and I can graduate with a bachelor’s degree at 20,” she said. “It’s completely doable for anyone who has the drive.”

Emily Heike, Running Start / Associate of Arts

“Life is about being dependable, flexible and hardworking. Every day is a new day and you have to be prepared. The PC staff really helped me map out my prerequisites and nursing school plan, so I didn’t have to travel to Port Angeles very often.”

Lucritia Stansbury, Nursing
