Take general education courses online with our accelerated 7-week summer schedule!
COVER STORY:

Aluminum Welding

High Wage High Demand Jobs Come to the Peninsula

Peninsula College will offer training in aluminum welding beginning July 3, 2017. This intense seven week certificate course will prepare men and women for new maritime jobs at Armstrong Marine and other local businesses clamoring for this skill. Industry recognized AWS certification is built into the training.

Armstrong was recently awarded a major Navy contract and received a significant grant to ramp up its workforce over the next five years. Aluminum welding is the key job supported in this grant, and Peninsula College, a partner in the grant, has expanded its program to provide the necessary training. Don’t miss your chance to build your skills for local family wage employment in a strong sector of our economy.

You may be eligible for financial support through Worker Retraining funding, so call Brian Kneidl at (360) 417-6263 or email bkneidl@pencol.edu to see if you qualify. If you have welding program questions, contact Jeramie O’Dell at (360) 427-6541 or email jodell@pencol.edu.

The eight-credit Aluminum Welding summer quarter class will be held from 8:00PM – 12:45PM Monday through Thursday. 16 students can be accommodated. This summer, Peninsula is also offering a general welding three-credit night class meeting Monday and Tuesday from 5:00PM – 9:00PM.

Aluminum Welding will be offered next in Winter quarter in an evening option over an 11-week schedule. Stay tuned for details in our next publication and online.

Welding skills are needed across the maritime sector, not only in aluminum, but also in other welding types. These skills are key to aerospace, construction, and other manufacturing and repair sectors, so welding is flexible as a lifetime career.

“The partnership between PC and our employers is very important because it keeps Peninsula College up-to-date with needs and training techniques,” said Jeramie O’Dell, welding instructor.

Summer quarter enrollment begins May 30, 2017 for returning students, and June 2, 2017 begins open enrollment.

See our website at: http://pencol.edu/proftech/welding for full welding program details and contact us now for more information. We hope to see you in Welding in July!

WELD 145: Aluminum Welding 8 credits
Monday - Thursday 8:00AM to 12:45PM

Become a skilled worker in the marine trade. Upon completion you will be eligible to test for American Welding Society certification. No prerequisites.

For information contact Jeramie O’Dell at jodell@pencol.edu pencol.edu/proftech/welding

Programs at a Glance

College Transfer
Two-year degrees that transfer to almost any major college:
- Associate in Arts
- Associate in Arts Bridge Program (inclusive of Native perspectives)
- Associate in Math Education
- Associate in Science
- Associate in Business
- Associate in Arts, Science or Business Honors

Professional Technical
Degrees to change or enhance your career. Professional Technical programs offer Associate in Applied Science, Associate in Applied Science – Transfer and short-term certificates.

PROGRAM AREAS:
- Addiction Studies
- Administrative Office Systems
- Advanced Manufacturing - CNC and Composites Technology
- Automotive Technology
- Business Administration
- Commercial Driver’s License
- Computer Applications Technology
- Criminal Justice
- Cybersecurity and Computer Forensics
- Early Childhood Education
- Emergency Medical Technician
- Entrepreneurship
- Food Service Management
- Green Building - Carpentry
- Hospitality & Ecotourism
- Information Technology-Systems Administration
- Medical Assisting
- Multimedia Communications
- Nursing
- Nursing Assistant Certificate
- Sustainable Agriculture
- Welding

Bachelor of Applied Science in Applied Management
Earn your four-year degree right here at PC either online or face-to-face. The Bachelor of Applied Science in Applied Management program allows you to combine your AAS, AAS-T, AA, or AS degree with upper division credits in applied management for a practical, relevant four-year degree. You will have a chance to apply your classroom learning to an internship in your second year.

Transition Programs
Been away from school for a while? PC has programs and services to get you on track to a college degree:
- Basic Education for Adults/GED
- English as a Second Language/English Language Acquisition
- Continuing Education
- Learning Center
- Tutoring
- High School 21+
- I-BEST

University Partners
Earn your Bachelor’s degree on the Peninsula with one of our university partners:
- Central Washington University
- City University of Seattle
- The Evergreen State College
- Old Dominion University
- Western Washington University/Huxley

Community & Business Education
PC offers a variety of classes to refresh your business skills as well as enhance your lifestyle, including:
- All of the Arts, including pottery wheel throwing, watercolors and quilting
- Computers/Technology, including web design, social media and home computer security
- Health and Wellness
- Job Training/Professional, including Flagging and Medical Billing & Coding
- Language and Culture

Entrepreneur Institute
The Entrepreneur Institute provides timely and targeted entrepreneurial training, offering classes, workshops, and seminars targeted to a variety of different experience levels. It also allows access to additional business development resources throughout the region to provide comprehensive support.

Business courses include:
- Business Plan Intensive
- Employee to Entrepreneur
- Web Marketing
- Financial Matters

For a list of all degrees and certifications that can be earned online, visit:
	pencol.edu/programs/online-degrees

VETERANS PRIORITY REGISTRATION AND RESOURCES
Veterans and National Guard Members can participate in Veterans Priority Registration. Peninsula College also offers additional veteran's resources. Find out if you qualify at pencol.edu/Veterans
**Professional Technical Education**

For more program information, visit: pencol.edu/proftech

Enroll today in one of our high demand job programs

The Washington State Employment Security Department determines specific levels of job growth and total job openings to designate an occupation as high demand. Below are one and two year programs designated as high demand on the Olympic Peninsula.

Accounting*
Administrative Office Systems*
Advanced Manufacturing - CNC and Composites Technology
Automotive Technology
Business Administration*
Cybersecurity and Computer Forensics*
Early Childhood Education*
Emergency Medical Technician
Green Building-Construction Management

Hospitality and Ecotourism*
Information Technology - Systems Administration*
Medical Assisting
Multimedia Communications - Web Design*
Nursing
Nursing Assistant (NAC)
Welding

* Indicates degree can be completed at a distance.

Meet Our Welding Faculty

Jeramie O’Dell

I have 25 years’ experience in the welding field. I am a graduate of Peninsula College where I obtained my AAS degree along with W.A.B.O. plate certifications in 7018, Flux Core, “Hard Wire”, and Heli-arc welding. I have extensive experience in explosive welding working for Pacific Aerospace & Electronics for over 8 years as well as 5 years’ experience in ship repair. My ship repair experience included fracture repair and working with intricate piping systems. My broad familiarity of metals and wire feed experience has brought a wealth of knowledge to the welding program.

I really like the atmosphere here at Peninsula College. It is fairly laid back and everyone seems more than happy to help you with whatever you need.

Eoin Doherty

I’ve been welding for over 25 years using GMAW, FCAW, SMAW and GTAW processes in both ferrous and non-ferrous metals and am AWS certified in all of them. I have welded on steel and aluminum boats and other marine fabrication projects as well as having my certification in Auto Body Technology and apprenticed in automotive engineering in Ireland. I also managed my family’s automotive repair shop, and was the main technician and managed corporate body shops in Bellevue and greater Seattle. My teaching experience includes instruction at Green River Community College.

I think that Peninsula College plays a very important role on the north coast of the Olympic Peninsula. I get great satisfaction in helping people learn a very valuable trade and skill set in the hope that they can provide a comfortable living for themselves and their family. Welding is a very important skill to have right now and with it you can go to work in most of the major trades such as construction, marine and auto. What I like about PC in general is that everybody is there to help each other as it’s a very close knit community here on campus.

Kelly Flanagan

I’m a certified welder in various types of aluminum and steel welding techniques and have 11 years of welding and fabricating experience. Some of my experience involves building luxury yachts, aluminum boats, and logging truck trailers. Currently, I’m employed as an instructor tech for the Peninsula College Welding Program. I’m also teaching welding at Crescent High School and instructing welders in Peninsula College’s evening community welding program.

I’m a proud graduate of the PC welding program and love that it provides me the opportunity to continually build on my personal skills while sharing my passion for welding and fabrication with others.

Suzanne Robertson

I began welding in Seattle in 1977 as a Boilermaker and in 1998 switched to the Ironworkers Union in Seattle, retiring when I moved to Port Angeles in 2013. Most of my experience comes from ship repair and structural welding.

I love teaching and seeing students get new skills that they will have for a lifetime. One of the best parts of the welding program at Peninsula College is that the students, along with basic welding skills, work on fabrication projects that give them a real sense of satisfaction, optimizing what they have learned in the classroom and in the welding booth.
Business & Community Education Classes

Peninsula College also offers an array of non-credit classes! Look for the Community Education guide coming soon, or visit pencol.edu/ce to find out more.

Nursing Assistant Certificate

Begin a Rewarding Career in Allied Health!

Peninsula College’s NAC program is a state-approved training that consists of basic and workplace skills, NAC caregiving related academics, and practical experience under the supervision of a Registered Nurse.

Upon completion of this course, students are eligible to take the Washington State Certificate Exam, making them employable in many healthcare settings like:

- Hospitals
- Assisted Living Facilities
- Clinics
- Skilled Nursing Facilities (long term care and rehab)

For more information, contact Margaret Siemion: msiemion@pencol.edu

Or visit: pencol.edu/proftech/nursing-assistant

Can’t Afford College? PC can help!

Financial support that is provided to the students in the form of a grant does NOT have to be repaid.

The Worker Retraining Free Tuition Program at Peninsula College is a state funded program designed to support instruction and training costs. It assists students interested in Adult Basic Skills and Professional-Technical programs such as Business, Nursing, Welding, and Criminal Justice with tuition expenses, books, dependent care assistance, and transportation costs, along with an educational supply or tool stipend. Additionally, funds can now be used to earn your Bachelor’s degree at PC.

For more information about the Worker Retraining Free Tuition Program, contact:

Brian Kneidl, Worker Retraining Navigator at (360) 417-6263, or email bkneidl@pencol.edu, or visit: pencol.edu/worker-retraining
I grew up in the Pacific Northwest. I earned a degree in biology from Stanford University where I developed an interest in neuroscience. I went on to earn a Ph.D. at Columbia University where, in the course of studies of the cellular basis of learning and memory, I developed a keen interest in how proteins called neurotransmitter receptors function as miniature machines that transmit information between neurons in the brain. As a postdoctoral fellow in pharmacology at University College London I used more sophisticated, single-molecule methods to study the functional properties of two classes of receptors that play critical roles in the changes in inter-neuronal signaling that underlie learning.

Current Research Interests:
My current interest is in the functional properties of a class of neurotransmitter receptors activated by the neurotransmitter acetylcholine (ACh) in the central nervous system. I am studying novel compounds (drugs) that change the way that ACh receptors respond to ACh in order to facilitate the development of therapies for nicotine addiction, autism, and other disorders associated with errors in signaling mediated by ACh receptors.

Brian Edmonds

Human Development & Computer Applications Technology

Get the skills necessary to find the job you want, stand out to employers, and be an effective collaborator at work.

Online and face to face classes are offered.

**CAT 100: Intro to Microsoft Applications**  
4 credits  
Learn the essentials of how to use Microsoft Office.

**CAT 140: Intro to Microsoft Excel**  
5 credits  
Become an expert in Microsoft Excel.

**HUMDV 101: Online Classroom Success**  
1 credit  
Learn how to be successful in an online classroom.

**HUMDV 112: Occupation Exploration**  
1-2 credits  
Discover how your strengths, skills, values and interests can help you make decisions in exploring college majors and career paths.

**HUMDV 120: Human Relations**  
3 credits  
Learn how to communicate, problem solve, and be an effective leader.

Get in Shape this Summer with These Self-Paced Fitness Classes!

**P E 108: Conditioning & Wellness I**  
1 credit  
Applies health-and-wellness principles, cardiovascular fitness, and strength training for a comprehensive fitness program. Emphasis on circuit training.

**P E 109: Conditioning & Wellness I**  
1 credit  
Applies health-and-wellness principles, cardiovascular fitness, and strength training for a comprehensive fitness program. Emphasis on circuit training.

**P E 162: Weight Training I**  
1 credit  
Fundamentals of strength training with emphasis on proper lifting techniques, development of individualized workout programs, knowledge of muscles in the body, and proper use of machines and equipment.

**P E 163: Weight Training II**  
1 credit  
Fundamentals of strength training with emphasis on proper lifting techniques, development of individualized workout programs, knowledge of muscles in the body, and proper use of machines and equipment.

**P E 164: Weight Training III**  
1 credit  
Fundamentals of strength training with emphasis on proper lifting techniques, development of individualized workout programs, knowledge of muscles in the body, and proper use of machines and equipment.
Go Further, Faster and Get Ahead!
With Our 7-Week Summer Schedule.

Communication Skills

**ENGL& 101: English Composition**
Item 1490, section COL | Online | 5 cr
Instructor: Helen Lovejoy
Active reading, effective writing, and critical thinking, using subjective and objective approaches. Introduction to research techniques. Prerequisite: Placement exam or pass in ENGL 090, 091, or 092.

**ENGL& 102: Composition II**
Item 1510, section COL | Online | 5 cr
Instructor: Michael Mills
Reading and writing using analytical and critical approaches. One or more research papers. Builds on concepts introduced in ENGL& 101. Prerequisite: 2.0 or better in ENGL& 101.

Quantitative Skills

**MATH& 107: Math in Society**
Item 1990, section COL | Online | 5 cr
Instructor: Zachary Rutledge
A study of a variety of mathematical topics for non-science majors. The topics covered may differ between sections, but may include problem-solving strategies, logic, set theory, number theory, mathematics of finance, probability and statistics, or geometry. Prerequisite: 2.0 or higher in MATH 090/091 or equivalent.

**MATH& 146: Introduction to Statistics**
Item 2000, section COL | Online | 5 cr
Instructor: Zachary Rutledge
Introduction to methods and applications of elementary descriptive and inferential statistics; summarizing data graphically and numerically, probability, confidence intervals, hypothesis testing, correlation and linear regression.

Humanities

**ART& 100: Art Appreciation**
Item 1140, section COL | Online | 5 cr
Instructor: Marina Shipova
Study of two- and three-dimensional art concepts. Lectures and selected art projects.

**ART 127: History of Art II**
Item 1150, section COL | Online | 5 cr
Instructor: Michael Miller
The art of western civilization from the early middle ages through the French revolution is considered. Periods explored include the Islamic, Carolingian, Celtic, Romanesque, Gothic, Renaissance, Mannerist, Baroque, and Rococo.

**CMST& 102: Introduction to Mass Media**
Item 1250, section COL | Online | 5 cr
Instructor: Richard Riski
Examines vital issues for people who use mass media or are affected by it. Emphasis on freedom of expression, censorship, fair trial, privacy, ethics, law, media economics, technology, effectiveness in communicating to audiences, and relationships to social, cultural, and political values.

**CMST& 220: Public Speaking**
Item 1270, section COL | Online | 5 cr
Instructor: Lara Starcevich
Explores classic and modern elements of persuasion and applies that understanding to assemble, deliver, and evaluate extemporaneous speeches.

**ENGL& 245: American Literature I**
Item 1540, section COL | Online | 5 cr
Instructor: Michael Mills
Survey of classic works as well as new voices from the beginning of American literature to the present. Prerequisite: ENGL& 101 or permission of instructor.

**PHIL& 101: Introduction to Philosophy**
Item 3120, section COL | Online | 5 cr
Instructor: Thomas Grimes
Examination of central issues from each major branch of philosophy. Emphasis on understanding and evaluating diverse answers to philosophical questions about human knowledge, existence, and moral values.

**PHIL 130: Ethics**
Item 3130, section COL | Online | 5 cr
Instructor: Thomas Grimes
Introduction to moral theory and its application to contemporary moral issues. Potential topics include nihilism, relativism, utilitarianism, Kant, legal punishment, distributive justice, terrorism, abortion, animal rights, and euthanasia.
Honors Program

A one of a kind Honors Program at PC
The Peninsula College Honors Program brings together students motivated to achieve academic success. Honors students at Peninsula College say the program is exciting, allows them to pursue their education in classes made up of similarly motivated students, helps them identify and complete a project they are passionate about, and move forward to better pursue their life goals.

For more information, visit: pencol.edu/honors-program

Social Sciences

**HIST& 148: U.S. History III**
Item 1540, section COL | Online | 5 cr
Instructor: Michael Cassella-Blackburn
Political, economic, social, and cultural history of United States from Spanish-American War to building the modern state, world power, and current issues.

**HIST& 214: Pacific Northwest History**
Item 1550, section COL | Online | 5 cr
Instructor: Michael Cassella-Blackburn
Course concentrates on the region of the Pacific Northwest, but is situated within the larger history of American and world history. The course proceeds through five main periods: indigenous peoples, European discovery, colonialism, industrial development, and regional control. Emphasis is placed on understanding social (ethnicity, race, and gender) differences, economic and political organization, and cultural values of the different historical periods.

**POLS& 101: Introduction to Political Science**
Item 3140, section COL | Online | 5 cr
Instructor: Ritu Lauer
Nature and function of political institutions in major national systems.

**PSYCH& 100: General Psychology**
Item 3150, section COL | Online | 5 cr
Instructor: Paul Mattson
Introduction to science of behavior. Emphasis on biological foundations of behavior, cognition, learning, intelligence, motivation, memory, personality, and psychological disorders.

**SOC& 101: Introduction to Sociology**
Item 3190, section COL | Online | 5 cr
Instructor: Tara Martin Lopez
Human social behavior, social institutions, and society from sociological perspective.

**SOC 115: Understanding Diversity**
Item 3200, section COL | Online | 5 cr
Instructor: Tara Martin Lopez
Examines elements that create differences within society and exposes learners to a variety of cultural ideas that will lead to a better understanding of people who are different. Culture, ethnicity, lifestyle, religion, disabilities, age, and gender issues will be examined.

**SOCSI 101: Contemporary Global Issues**
Item 3210, section COL | Online | 5 cr
Instructor: Ritu Lauer
Introductory course to develop the analytical skills necessary to understand major developments in the contemporary world and to provide the basis for more advanced study in the field of world politics.
Natural Sciences

C SC 100: Introduction to Computer Science
Item 1210, section COL | Online | 5 cr
Instructor: Eric Waterkotte

An introduction to the fundamental concepts of computer science. Topics covered include the history and theoretical foundations of computing; how modern system components function and operate; the fundamentals of computer programming; Algorithm design and evaluation; the role of the operating system in various computing platforms; the social and ethical issues of modern computing systems.

CHEM& 110L: Chemical Concepts with Lab
Item 1220, section COL | Online | 5 cr
Instructor: Ben Weintraub

Introduction to chemistry covering selected principles and their effect on ourselves and our environment. Intended for non-science majors wishing to improve their science literacy and develop a long-term interest in science.

CHEM& 121L: Introduction to Chemistry
Item 1230, section COL | Online | 5 cr
Instructor: Ben Weintraub

For individuals with little or no chemistry background. Atomic nature of matter, chemical bonding, periodic table, chemical reactions, phases of matter, solutions, equilibrium, reaction rates, and nuclear reactions. Includes laboratory.

SCHOLARSHIPS AVAILABLE NOW!
For more program information, visit: pencol.edu/scholarships

Clallam Promise Scholarship:
The Clallam Promise Scholarship is a need-based scholarship available to students attending Peninsula College who have graduated from any Clallam County high school (Cape Flattery, Clallam Bay, Crescent, Forks, Lincoln, Neah Bay, Port Angeles, Quileute Tribal School, and Sequim). The scholarship is designed to provide a maximum quarterly award up to $1,000 toward Peninsula College tuition and fees, with an additional $300 available toward textbooks, as well as up to $500 for the purchase of tools and supplies. Students must fill out the FAFSA to be considered for this first-come, first-served award. Visit pencol.edu/scholarships/clallam-promise-scholarship

ALUMNI WANTED
We want to hear from you!

If you’ve ever attended Peninsula College, then we’d like to catch up with you to connect, share your story to inspire others, and offer our support if there’s more you’d like to do at PC. Visit our website to fill out the alumni survey:

alumni.pencol.edu

Graduating at the end of Spring Quarter or already have a 2-year degree?
Do you have a two-year degree and want to continue your education? Are you interested in a career in management? Do you want to get a four-year degree right here on the Olympic Peninsula? If so, Peninsula College’s Bachelor of Applied Science in Applied Management (BAS) program is for you! Our courses are designed to develop your leadership, business, and organizational skills. Classes are offered in the evening or online for your convenience.

To find out more, check out our program information online at pencol.edu/bas or contact us at bas@pencol.edu
Apply for Financial Aid

Applying for financial aid is a PROCESS - not a single step. It is also about dates and deadlines. To start the process, visit www.pencol.edu/Financial/Apply-for-aid.

You will need to:
- Complete the FAFSA and list PC as your college.
- Read below under Financial Aid Follow Up for additional steps to complete your financial aid file.

Deadlines:

<table>
<thead>
<tr>
<th>What quarter do you want to start?</th>
<th>Apply to PC Before:</th>
<th>Complete Financial Aid File No Later Than:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer 2017</td>
<td>April 2017*</td>
<td>May 2, 2017</td>
</tr>
<tr>
<td>Fall 2017</td>
<td>June 2017</td>
<td>July 18, 2017</td>
</tr>
</tbody>
</table>

* Deadline Passed

Submit Your FAFSA

The Free Application for Student Aid (FAFSA) process is open now. File as early as possible for maximum benefits every year!

- Create your Federal Student Aid ID: https://fsaid.ed.gov
  Go to www.fafsa.ed.gov and fill out the FREE application.
- Look for your Student Aid Report in the mail/email. Call 1.800.4.FEDAID if you need it resent.

The FAFSA opens in October for the next academic year. Submit it early, then add information as it becomes available. Visit pencol.edu/financial for more information.

Financial Aid Follow-Up

- Check application status at the Financial Aid Portal: https://www.fas.ctc.edu/portal4/?col=220
- Complete the PC Financial Aid Data Sheet online: Log into the Financial Aid Portal and a link will be available under “Information We Need From You.”
- Respond to any other requests, all listed in the Financial Aid Portal under “Information We Need From You.”

Worker Retraining Free Tuition Program

Worker retraining opportunities are provided for laid off, unemployed, and dislocated workers in the State of Washington.

- Provides job training to eligible members of Washington’s workforce.
- The financial support provided to eligible students does NOT have to be repaid.

For more information visit: pencol.edu/worker-retraining

Scholarships

Scholarships are available throughout the year for virtually all types of students. Please visit pencol.edu/scholarships to learn about scholarships available as well as to learn about the Wash Board, a web based centralized scholarship matching clearinghouse.

No Diploma or GED?

Not sure if you qualify for federal or state financial aid due to not having a High School Diploma or GED? Talk to Peninsula College about what program you’re interested in and we can assist in navigating the steps to see if you will qualify.
