MEET RECENT PC GRADS

GARY,

CORA,

Scotland,

Amie, AND

Damaris

WHERE WILL YOU GO?

Attending PC made coming back to school at this stage of my life simple.

As a wife and mom of four, returning to school was a leap of faith.

I found the variety of online classes available along with the choice to take on more or less credits per quarter made it possible for me to balance family and education. Online classes offer me a structured class setting with the flexibility to do the work around my family's schedule. Additionally, the Work-Study program has given me the opportunity to contribute to our finances without compromising the flexibility needed to meet class deadlines or my availability for my family.

With family and work responsibilities, bills and time constraints, the idea of going back to school as an adult can be intimidating. Don't let money stop you.

Tuition costs across colleges and universities in Washington increase every year. Peninsula College takes paying for college seriously. Our Financial Aid Office is here to help you find the various types of financial aid funding you need to meet your educational goals at a fraction of the cost of a 4-year school.

With scholarships, grants, worker retraining, and more, we've got all sorts of funding opportunities available.

STUDENT LOANS

(360) 417-6390

Funded by the federal government and available to students

SCHOLARSHIPS

(360) 417-6390

Students who are or will be attending PC can apply for a number of scholarships

VETERANS BENEFITS

(360) 417-6339

Veterans and veterans' dependents may qualify for veterans educational benefits

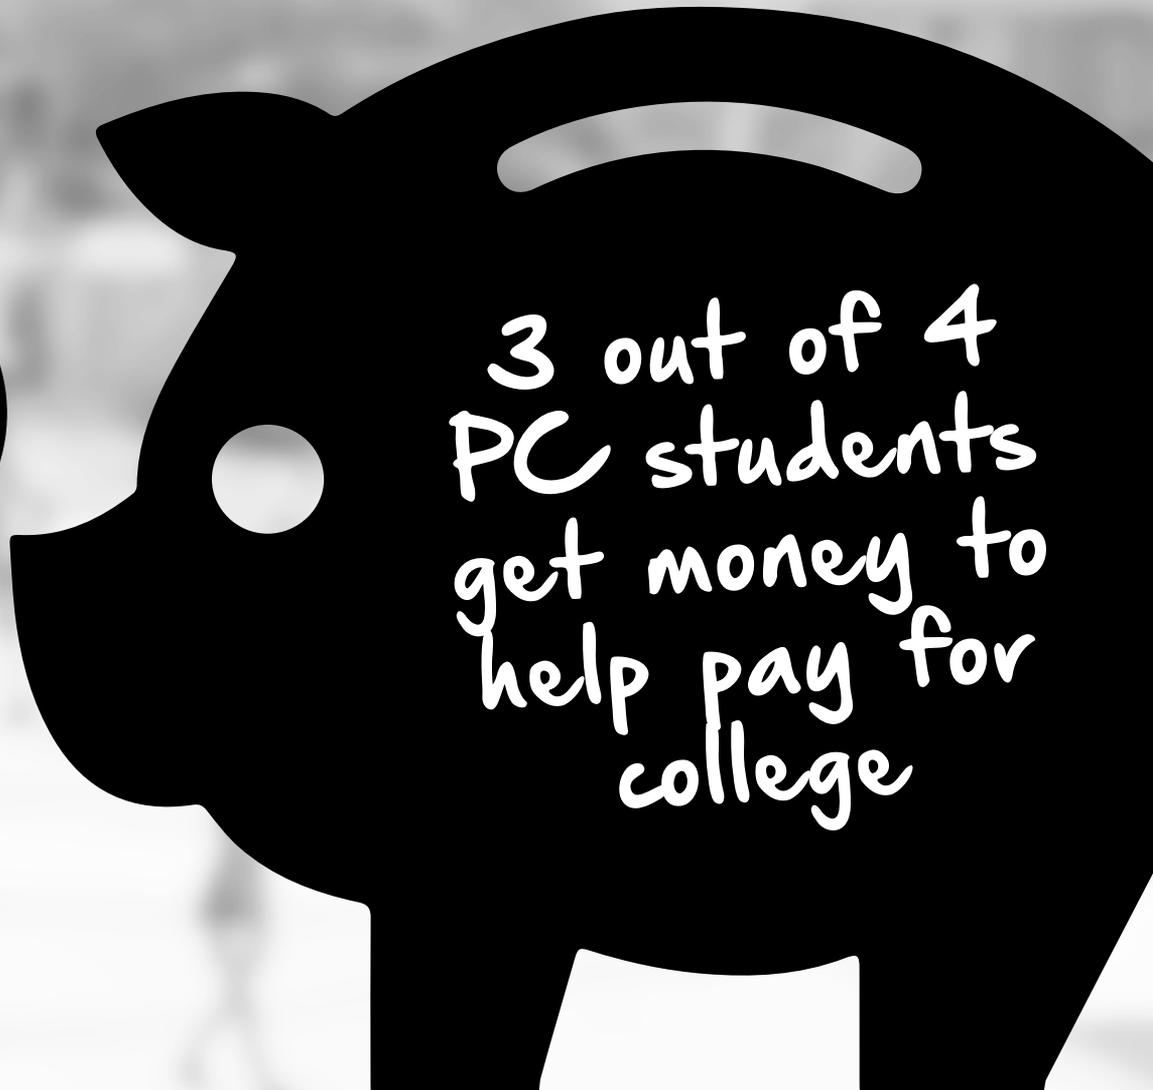

OPPORTUNITY GRANT

(360) 417-6342

Assists low-income Washington state residents who have not yet earned a degree (Associate or higher)

3 out of 4
PC students
get money to
help pay for
college

FINANCIAL AID

(360) 417-6390

Start your financial aid file while you complete your other college application requirements

WORKER RETRAINING

(360) 417-6296

Provides tuition-free retraining opportunities for laid off, unemployed, and underemployed workers

COMMUNITY RESOURCES

(360) 417-6340

Organizations that provide resources, both career oriented and financial, for students and the community

TUITION PAYMENT PLAN

(360) 417-6232

Apply to have your tuition and fees divided into three payments

BFET

(360) 417-6296

Provides job search training, educational services, skills training, and more to Basic Food (SNAP) recipients

WORKFIRST PROGRAM

(360) 417-6296

Assists parents receiving Temporary Assistance for Needy Families (TANF) who want to further their education

WORK-STUDY

(360) 417-6359

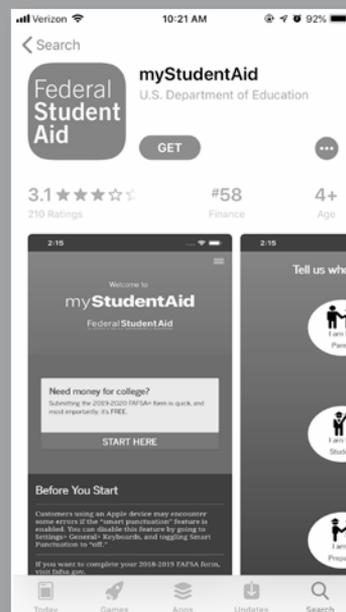

Students gain work experience while earning money for college

The new 2020–2021 FAFSA form is available

The Free Application for Federal Student Aid (FAFSA) streamlines your college financial aid process, and is a “must-have” when applying for money to pay for college from PC. There’s no cost to apply and we recommend you submit your FAFSA as soon as possible. A new FAFSA is required every academic year.

There's an app for that!

The FAFSA can now be completed on your mobile phone using the U.S. Department of Education's myStudentAid app.

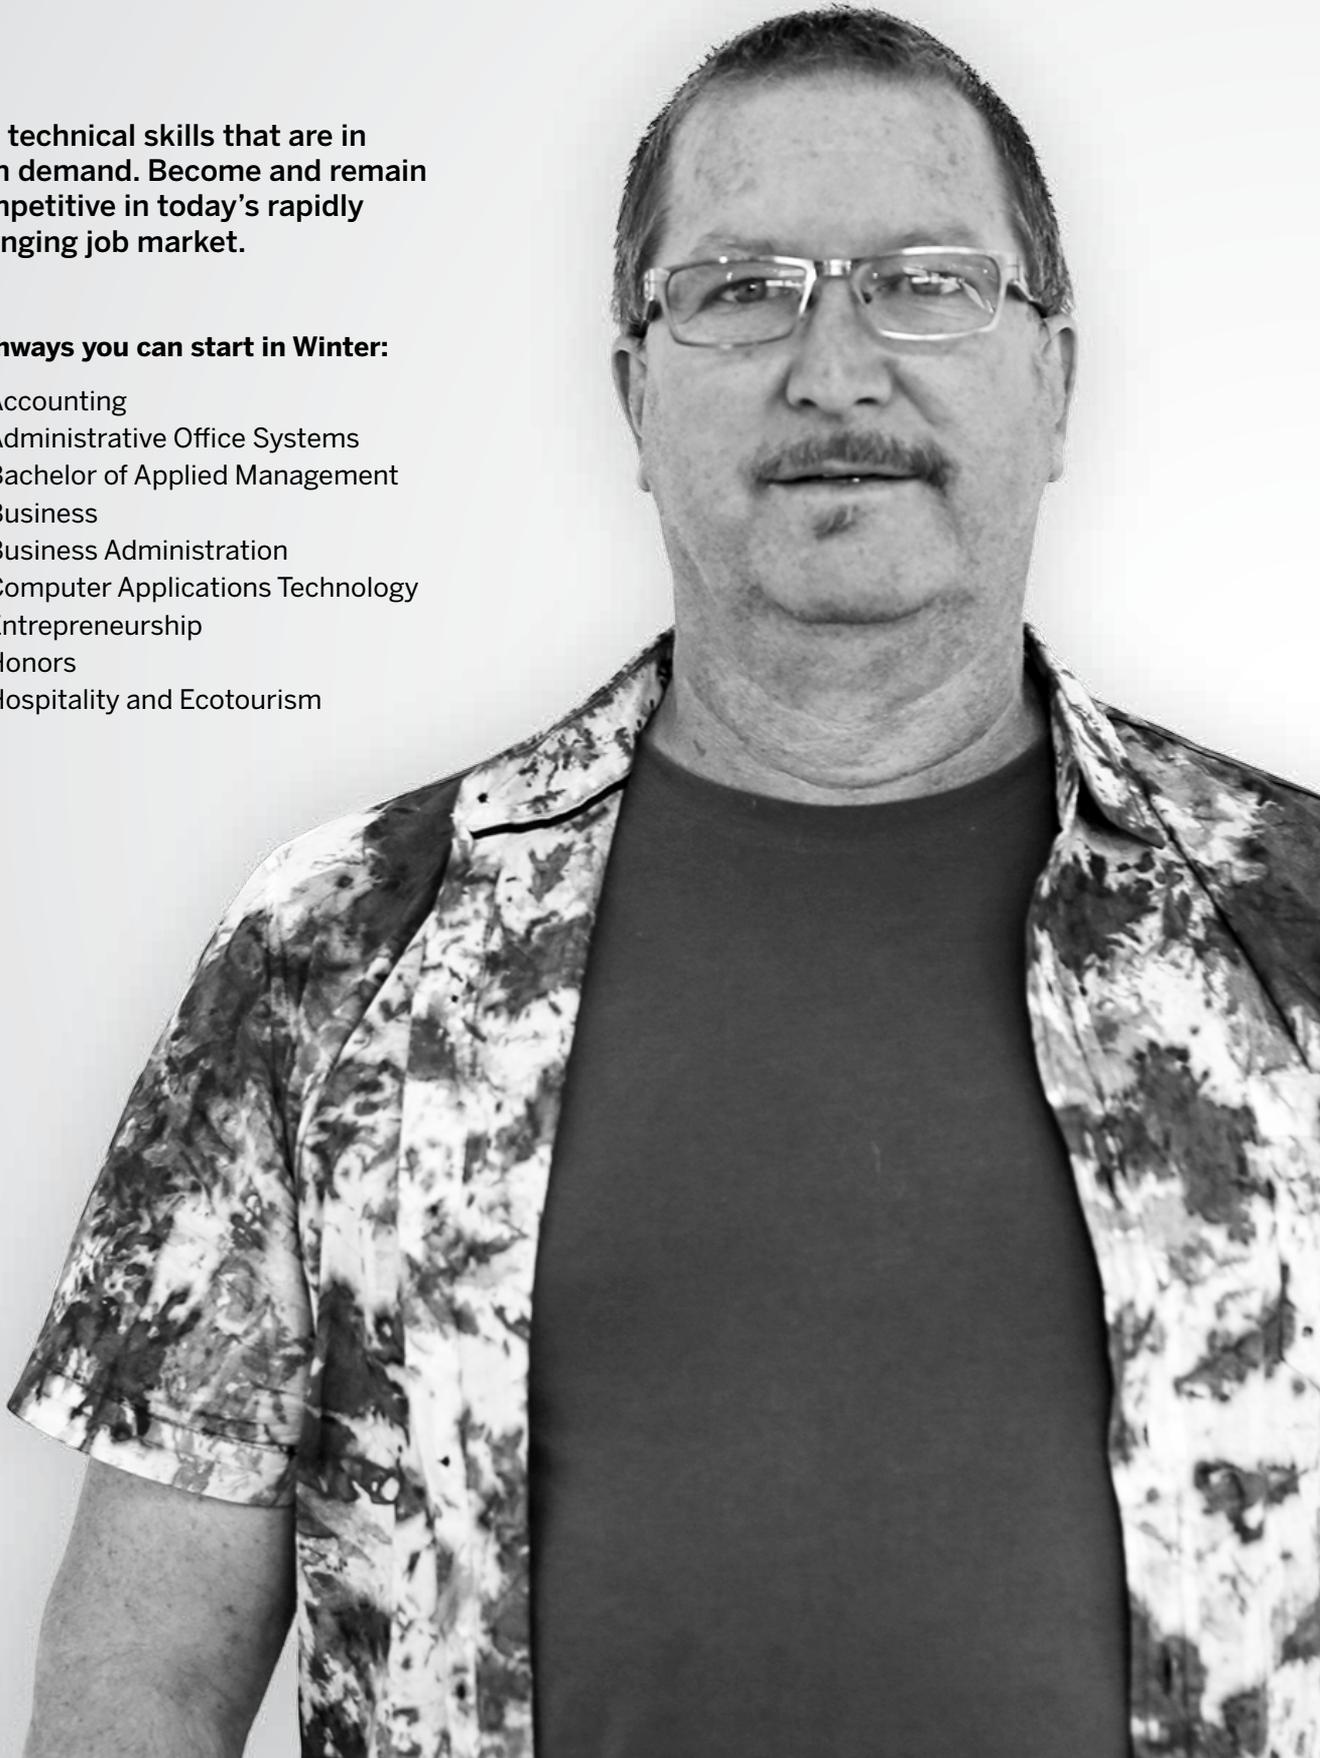

BUSINESS & MANAGEMENT

Get technical skills that are in high demand. Become and remain competitive in today's rapidly changing job market.

Pathways you can start in Winter:

- + Accounting
- + Administrative Office Systems
- + Bachelor of Applied Management
- + Business
- + Business Administration
- + Computer Applications Technology
- + Entrepreneurship
- + Honors
- + Hospitality and Ecotourism

Bachelor's in Applied Management

”

No high school diploma? No problem!

Our pathways let you earn a diploma and a degree at the same time.

TWO NEW TODDLER CHILDCARE CLASSROOMS COMING TO PC THIS WINTER

Two new toddler classrooms will offer affordable childcare, a critical factor in degree completion, for low-income students at Peninsula College, thanks to a \$160,585 U.S. Department of Education Child Care Access Means Parents In School (C-CAMPIS) grant.

Having the Early Childhood Development Center classrooms will fill a critical need for PC students with toddler age children, allowing services for an additional 20 children, ages one to three, per school year. For low-income students who find travel to campus a barrier to their success in school, these on-campus services can make a difference in their ability to complete a degree.

The total cost of the Peninsula College C-CAMPIS Project is \$205,006, with the US Department of Education funding 79% of total costs (\$160,585), and Peninsula College contributing the remaining 21% (\$44,421) of project costs through in-kind contributions.

GET STARTED

1

▶ Apply / Reapply

pencol.edu/getstarted

Apply online or in person. There is no application fee. The earlier the better.

2

▶ Find money

pencol.edu/financial/apply-for-aid

Invest in yourself and your future. Enroll today.

ARE YOU AN ADULT WHO WANTS TO IMPROVE YOUR READING, WRITING, MATH, COMPUTER, OR ENGLISH LANGUAGE SKILLS?

Our Basic Education for Adults (BEaA) Program can help, with locations in Port Angeles, Port Townsend, Forks, and Neah Bay.

We can help you:

- Obtain your high school diploma
- Improve your college placement test scores
- Prepare you for further education
- Learn to speak English or improve English skills
- Prepare for the GED® test
- Obtain skills needed to get a job

Tuition for all BEaA programs is \$25 per quarter, and financial aid is available for those who qualify.

Masters

BAS

AAS

GED®

When I was 26, I found myself a single mom of a 2-year-old, unemployed, and without a high school diploma or GED®. I knew something in my life had to give. Winter quarter 2011 I walked into Peninsula College's Basic Education for Adults department and started GED® prep courses.

I was scared because for so many years I had been told I wasn't smart enough. What I realized that first quarter was that I was smart and that I loved learning. I got my GED® and started college classes right away with the help of Worker Retraining, who paid my first quarter tuition and my books. During my time at the college, I utilized DSHS programs such as WorkFirst, which gave me access to daycare and basic food assistance. I also took advantage of tutoring services for math and writing.

I graduated in June 2013 with my AAS in Administrative Office Systems. A few years later, I came back to PC to get my bachelor's in Applied Management, and again, the college welcomed me with open arms.

I have encountered so many amazing, helpful, kind people over the last 8 years. I am now employed by PC as Basic Education for Adults Program Manager. I get to give back to the first educational establishment that taught me I was more than a test score. As my dreams keep evolving, so do my educational goals. I am currently working on my Masters in Higher Education Leadership. If I could give new learners a bit of advice it would be to keep going, keep learning, and never give up. Utilize the services that PC has and talk to your instructors, advisors, and support staff. And if all else fails, come see me.

AMIE BATTON

BEdA Program Manager, PC grad

THE EDUCATION AND TRAINING YOU NEED IS AVAILABLE NOW

..... RUNNING START

If you're an academically motivated high school junior or senior, you may be able to take college courses tuition free, earning credit for both high school and college.

Explore the science and culture of the Olympic Peninsula through our SCOPE (Science and Culture of the Olympic Peninsula Ecosystem) Program.

Follow an interdisciplinary pathway to an AA or AS degree that emphasizes hands-on learning while exploring the culture and ecology of our mountains, forests, and sea. The courses for this pathway create a learning community that combines English and Biology. It also includes a course that explores foundational ideas about the roles science and culture play in our ecosystem. These courses will set the stage for an exploration of our cultural and natural history, as well as prepare you for future field experiences and the completion of an independent project in the second year of the program. Join professors Barbara Blackie, Matt Teorey, and Arendt Speser for this unique program with a local focus!

Unique new
program with
a local focus

Student success, equity, and inclusion are at the heart of what we do at PC. With those core values in mind, we felt it was time to refresh our mission statement, vision statement, and core themes. With input gathered from students, faculty, staff, tribal and workforce partners, the Foundation Executive Board, and employees of both our Port Townsend and Forks campuses, we created updated versions.

MISSION

Peninsula College educates diverse populations of learners through community-engaged programs and services that advance student equity and success.

VISION

Peninsula College is a destination of cultural and environmental diversity where academic excellence transforms students' lives and strengthens communities.

CORE THEMES

Advancing Student Success
Achieving Academic Excellence
Fostering Equity and Inclusion
Strengthening Communities

"This was my fourth time at college since 1997, and this is the first time I finished and got a degree, just because of my instructor. No one had sat me down and given not just advice but tons of directions to go in. He helped me focus on what my talents are, I didn't even think of cybersecurity. I took it and fell in love overnight, then signed up to take all of his classes."

Scotland Noonan
AAS in Systems Administration

INFORMATION TECHNOLOGY

Meet Scotland, a recent PC grad.

Prepare for jobs that use your analytical thinking and creative problem solving skills as you train for a high-tech career.

Pathways you can start in Winter:

- + Computer Applications Technology
- + Cybersecurity & Computer Forensics
- + Information Technology-Systems Administration
- + Multimedia Communications

No high school diploma? No problem!

Our pathways let you earn a diploma and a degree at the same time.

You can earn your

FOUR YEAR DEGREE

right here

at Peninsula College

To keep up—and stay ahead—in the ever-changing workplace, education and skills training is a lifelong pursuit. Get the skills to go further in your career with a bachelor's degree from Peninsula College. Our Bachelor's Degree in Applied Management is designed to fit your busy life. Courses can be taken 100% online, or face-to-face in the evenings, to accommodate working adults and online learners.

“

During the five years that I spent at PC, I found the Computer Applications Technology program that I took for my AA particularly helpful. It was essential to furthering my education, ensuring computer literacy, and the program brought me up-to-date on current technology and its many uses in a field that will only continue to grow.

I plan to use my BAS degree to find my niche and settle into a career for a company that will feel like a second family to me. My goal is to have a stable life for both my daughter and I. After taking a small break from school, I would like to possibly pursue a masters in Computer Science.

**COLLEGE & CAREER
COMPASS
WASHINGTON**

As part of a new state-wide project to help adults return to the classroom, complete their certificate or degree, and advance their careers, we're partnering with the Washington Student Achievement Council. A soon-to-be released online tool, College and Career Compass, will show students which programs and services PC offers to help adult students.

Completing your college certificate or degree is critical for participating in the 21st century economy. Finances, family obligations, and other road blocks might be keeping you from earning the credits you need, but they don't have to. Let College and Career Compass connect you with local, career-focused, adult friendly pathways, and address what has kept you from finishing your education, while offering you the support you need.

Meet Damaris, a recent PC grad.

Earn your degree and advance your career using methods of science to understand the complex workings of the social world, including how we behave and interact.

Pathways you can start in Winter:

- + Bridge to Native Pathways
- + Criminal Justice
- + Early Childhood Education
- + Education
- + General Social Sciences
- + History
- + Homeland Security & Emergency Management
- + Psychology
- + Sociology

I chose Emergency Management and Homeland Security because anytime you turn on the computer, TV, or radio it seems like it all has to do with emergency management and homeland security. I did my internship with

Clallam County Emergency Management. I got to go to Puerto Rico and spoke with Emergency Management officials down there.

ESPORTS SEASON LAUNCHED

Our new esports student athletes, under Head Coach Charlie Morrow, have a variety of academic interests, including criminal justice, engineering, nursing, and general studies/AA and range in age from 17 to 30. Most of the students work in addition to going to school full-time and live on their own. Several have previous experience in athletic programs and other extracurricular programs in high school. The average GPA of interested students is 3.2, with several at 3.5 or higher.

Morrow hopes to build a competitive gaming presence on the Olympic Peninsula, and create connections with other collegiate programs around the Pacific Northwest, during the team's inaugural season. Future tournaments will be available for public viewing on campus and via Livestream.

**Change what it means to be a student athlete
and help shape the future of competition by
joining our esports program today.**
