### Aluminum Welding Night Course Now Offered

Peninsula College teams up with local maritime  
employer to get aluminum welders into the workforce

PENINSULA  
COLLEGE

# Ready to get started at Peninsula College?

## 1 ▶ Apply / Reapply

[pencol.edu/GetStarted](http://pencol.edu/GetStarted)

Apply online or in person. There is no application fee. The earlier the better!

## 2 ▶ Find money

[pencol.edu/financial/apply-for-aid](http://pencol.edu/financial/apply-for-aid)

Applying for financial aid and scholarships is a process.

## 3 ▶ Take placement assessment\*

[pencol.edu/admissions/testing-center](http://pencol.edu/admissions/testing-center)

\*Not all classes require a placement assessment.

## 4 ▶ Get oriented

[pencol.edu/admissions/new-student-orientation](http://pencol.edu/admissions/new-student-orientation)

Complete a campus orientation. Online orientation is available for students who live out of the area.

## 5 ▶ Meet with an advisor and register

[pencol.edu/advising](http://pencol.edu/advising)

Meet with an advisor to create your roadmap for success and register for classes.

## 6 ▶ Pay tuition

[pencol.edu/financial/payment-options](http://pencol.edu/financial/payment-options)

Pay your tuition and fees with the online payment option, in person or by mail. A payment plan option is available too.

For more information contact us at (360) 417-6340 or [pencol.edu/GetStarted](http://pencol.edu/GetStarted)

# PC at a Glance

## Our Mission

Peninsula College provides educational opportunities in the areas of academic transfer, professional and technical, basic skills, and continuing education. The College also contributes to the cultural and economic enrichment of Clallam and Jefferson Counties.

## Annual Enrollment\*

4,619 Total Enrolled Students  
161 International Students  
137 Out-of-State students

\*2015–2016. Includes inmates in total enrolled.

## Class Size

Average class size: 17 students  
Student/Faculty ratio: 16:1

## Faculty & Staff\*

48 Full-time Faculty  
166 Part-time Faculty

\*2015–2016 Economic Benefit Report/  
supporting data.

## Student Profile

41.3% Full-time  
58.7% Part-time  
60.1% Female  
39.9% Male  
27.3 Median age  
26.7% Students of color\*  
34% Students work while attending classes  
24.8% Students with children

\*Percentage is of those responding.

## Winter Quarter Important Dates

Now	Apply / reapply online or in person (application is free)
November 13-17	Advising week
November 17	Financial aid application deadline
November 20-22	Returning, degree-seeking student registration
November 27	Open registration
December 13	Winter quarter tuition due
December 29	Last day to register (check website for business hours)
January 2	First day of Winter quarter
March 19	Last day of Winter quarter

# Starting A New Career With Worker Retraining

Program helps former mill worker make a fresh start

Shaina Gonzalez went to work for Port Angeles paper manufacturer Nippon in 2013. She liked her job in the labor pool, learning the ins and outs of all sorts of skilled work. Operating equipment was her favorite assignment. Two years later she was laid off during a work shortage and investigated enrolling in PC's medical assisting program. At that time she had been out of school for 20

years and was going through some life changes, and found the prospect of school a little intimidating. So when the company offered her the job back she chose to stick with what she knew. Then in 2017, along with the rest of the company's employees, she was laid off permanently with no promise of rehire.

Whenever there is a large company closure in Clallam or Jefferson County, a “rapid response” is conducted by Employment Security, WorkSource, labor and Trade Act representatives and Worker Retraining (WR) personnel from Peninsula College. Displaced mill workers met in the College’s Little Theater to learn about their reemployment and educational options, with a follow up event in the Pirate Union Building a few weeks later that was focused just on school. About 30 former Nippon employees decided to participate in PC’s Worker Retraining Program.

After meeting with PC’s WR representative, Brian Kneidl, Shaina decided the time was right to enroll in the medical assisting program. The fear associated with not having an income had kept her from enrolling at PC in the past. She had three sons to care for, and left the support of her family behind when they moved to Port Angeles four years ago.

“It was really scary putting everything into school because there are no guarantees,” she said, “but Brian is always there when I need him.”

Shaina chose medical assisting because she had always been interested in the medical field, and was particularly interested in anthropology in high school. She also enjoys travelling and knows that there are travel opportunities available in the MA field.

Shaina describes getting her degree as a stepping stone that will open more doors for her, and says she may even pursue anthropology as a hobby in the future.

“Starting over is scary and exciting at the same time,” she said. “What keeps me going is my kids seeing me do it. Showing them it can be done.”

# Are you ready for a fresh start?

Worker Retraining eligible students may receive funds to cover tuition, mandatory fees, books and supplies in qualified programs. The program also provides support services such as tutoring, career advising and college success workshops.

Honors students present their Capstone Projects at the annual Honors Symposium

Our Honors Program brings together students who are motivated to achieve academic success. Each student works on a capstone project that they are passionate about with a faculty mentor. The honors degree and capstone project give PC grads an advantage when applying for scholarships and to four-year schools.

Our students say working with similarly motivated peers is exciting, and the program helps them in pursuing their life goals.

## CRTC Students Place Seventh in International Composites Competition

[pencol.edu/proftech/composites-technology](http://pencol.edu/proftech/composites-technology)

2017 team members Dustin Henning, Keith Lesnick, Scott Ohman and Andrew Martyanov

The PC Pirates team, the only solely 2 year school in attendance, defeated teams from the University of Washington, UCLA, NYU, Western Washington University, University of Delaware, University of Maryland, Harbin Engineering University (China), Gonzaga University, Brigham Young University, and Montana Tech.

Advanced Composites students designed, built, and tested two bridges over three weeks, prior to their first-time entry in the Society for the Advancement of Material and Process Engineering Student Bridge Competition, now

in its twentieth year. Their bridge, weighing only 43.8 ounces, withstood a load of 6.7 tons, making their bridge the third strongest, and giving them the seventh place ranking in their I-beam class.

The Composites Recycling Technology Center, co-located with the Advanced Composites program, donated carbon fiber materials and equipment use, and performed engineering reviews to refine the students' design. Guy Houser, Director of Engineering at CRTC, answered students' questions, discussed engineering concepts, and reviewed the design changes. Lesnick and Martyanov graduated from Peninsula College last June with AAS degrees.

# Enroll Now in the Early Childhood Education Program

[pencol.edu/proftech/early-childhood-education](http://pencol.edu/proftech/early-childhood-education)

**“The new Early Childhood Development Center is a state of the art place for students to complete their student teaching experiences.”**

***ECE Program Coordinator, Yvette Cline***

Our Early Childhood Education (ECE) Program has thoughtfully designed spaces and learning opportunities at every turn on the PC Port Angeles campus. The new Early Childhood Development Center, which opened in September of 2017, is a full sensory experience for children and adults alike, and uses technology that offers a first rate education for enrolled students anywhere on the Peninsula.

Like the building, the ECE Program was designed with student convenience in mind. They can enter the program during any school quarter on a full time or part time basis. Classes are offered on the Port Angeles campus during late afternoons and evenings to accommodate students' work schedules. They are also offered in Port Townsend and Forks through Interactive Television (ITV). Most courses have an online component and several are offered entirely online.

Short term, stackable certificates are offered through the Program, including State Initial ECE, State Short ECE: General, State Short ECE: Infants and Toddlers, and the ECE State Certification.

Graduates with a 90-credit Associate of Arts Sciences Degree in ECE can find work in many fields, ranging from child care specialists to curriculum program managers. They may also qualify for positions in Head Start/ECEAP as Early Head Start specialists. In addition, there are opportunities for family support paraprofessionals in human services and mental health agencies.

For more information contact Yvette Cline

## Already have a job in the childcare field?

The Early Achiever Grant, which covers books and tuition, is available through the State of Washington. Funds are available year-round, and the program is currently taking applications for winter quarter. Call (360) 417-6495 for more information.

Commercial kitchen makes serving and clean up easier

## New Night Welding Course Translates Into Local, Family Wage Jobs

PC ramps up workforce in response to demand

A shortage of skilled aluminum welders on the Olympic Peninsula has created the opportunity for local, family wage jobs in the maritime industry.

A Port Angeles maritime employer was recently awarded a major Navy contract and has received a significant grant to ramp up its workforce over the next five years. Aluminum welding is the primary job supported in the allocation and PC, a partner in the grant, has expanded its welding program to provide necessary training.

This winter quarter, PC is offering Welding 145, an eight credit aluminum welding night class, scheduled Monday through Friday from 6:00 pm - 9:00 pm on the Port Angeles campus, beginning January 2.

The 11-week certificate course will prepare students for maritime jobs with the skills that area businesses are clamoring for.

Once the class has been completed, students will be eligible to test for American Welding Society certification. Following

## Get started now!

The need for skilled welders is continually growing on the Peninsula and beyond. Our Welding Program trains students to walk out of the classroom and into a career.

Contact: Jeramie O'Dell  
[jodell@pencol.edu](mailto:jodell@pencol.edu)  
 (360) 417-6541

certification they will begin a job with a local welding employer. In total, it adds up to 132 hours of training with no prior welding experience necessary.

Don Baker a former aircraft fixture builder in Sandpoint, Idaho took part in the seven week aluminum welding program this past summer, where he learned to weld in the style that companies are looking for.

"I thought the two instructors Eoin (Doherty) and Kelly (Flanagan) were really good," he said. "There was a lot of classroom instruction and the hands-on learning experience was good."

Since completing the program, Baker was notified that he had passed all tests and is waiting to receive his certificate so that he can apply for work locally.

"The partnership between PC and the community is very important because it keeps Peninsula College and local employers connected so we can use the most up to date training techniques," Jeramie O'Dell, welding program director said. "It is also very important because it keeps jobs here on the Peninsula, families together, allows individuals to make a livable wage and gives individuals a nationally recognized certification."

Winter quarter enrollment begins November 20-22 for returning students, and November 27 marks open enrollment. Get the skills you need for local, family wage employment in a strong sector of our economy. Worker Retraining funds are available for those who qualify. Visit [pencol.edu/worker-retraining](http://pencol.edu/worker-retraining) to see if you are eligible.

For more information, visit: **[pencol.edu/welding](http://pencol.edu/welding)**

# High School 21+

**The high school diploma you've always wanted is within reach; let your life experience get you there.**

Peninsula College's High School 21+ program offers adults the opportunity to earn their high school diploma in a flexible time frame. Through our program, students have the potential to turn the knowledge they have acquired through a variety of life experiences into high school credits that move them closer to a diploma. Students can take a full or part-time load and work at their own pace.

**We work closely with you so that you can earn the high school diploma that will shape your future!**

## Funding Your Education

To assist you in paying for your education, Peninsula College offers several options for students who qualify. Due to deadlines and limited funds, students are encouraged to apply early. Some programs are designed to support students in specific situations. Eligibility for these programs are usually determined on a funds-available basis and require a separate application to access funds.

### FINANCIAL AID | (360) 417-6390

Applying for financial aid is a process that should be started as soon as possible. Work on your Financial Aid file at the same time you are completing other college application requirements.

### OPPORTUNITY GRANT | (360) 417-5694

Assists low-income Washington state residents who have not yet earned a degree (Associate or higher). The grant can provide funding for tuition/fees and books/supplies for eligible adults for up to 45 credits in specific programs.

### SCHOLARSHIPS | (360) 417-6390

Students who are attending or will be attending Peninsula College can apply now for any number of scholarships.

### TUITION PAYMENT PLAN | (360) 417-6232

You can apply to have your tuition and fees divided into three payments.

### VETERANS SERVICES | (360) 417-6224

Peninsula College recognizes and appreciates all who have served in the United States Armed Forces. If you are a veteran, or a survivor, or a dependent of a veteran working toward a degree or certificate, you may be eligible for veterans educational benefits.

### WORK-STUDY | (360) 417-6359

Offers students the opportunity to gain valuable work experience while earning money for college. Both on-campus and off-campus positions are usually available.

### BFET | (360) 417-6296

Basic Education for Adults (BEEdA) Program provides instruction for adults who wish to improve reading, writing, math, computer and English language skills. We also help prepare students wishing to earn their GED® or high school diploma.

### WORKFIRST PROGRAM | (360) 417-6296

A referral-based program to assist parents receiving Temporary Assistance for Needy Families (TANF) that want to further their education. Parents participate in Basic Education for Adults, High School Completion, and Professional-Technical degrees at Peninsula College.

### WORKER RETRAINING | (360) 417-6263

This free tuition program provides retraining opportunities for laid off, unemployed, and dislocated workers in the state of Washington. The financial support provided to eligible students does NOT have to be repaid.

### COMMUNITY RESOURCES | (360) 417-6340

Peninsula College is in partnership with many organizations which provide resources, both career-oriented and financial, for students and the community.

### STUDENT LOANS | (360) 417-6390

Loans are funded through the federal government and are accessible to students who have filed the FAFSA.

## 2017–2018 Tuition & Fees

Credits	Resident	Nonresident	Resident Baccalaureate	Nonresident Baccalaureate

10	\$1,051.70	\$1,188.90	\$2,053.60	\$2,190.80
11	\$1,103.78	\$1,241.70	\$2,064.55	\$2,201.75
12	\$1,155.86	\$1,294.50	\$2,075.50	\$2,212.70
13	\$1,207.94	\$1,347.30	\$2,086.45	\$2,223.65
14	\$1,260.02	\$1,400.10	\$2,097.40	\$2,234.60
15	\$1,312.10	\$1,452.90	\$2,108.35	\$2,245.55

\* Tuition rates are subject to change by the Washington State Legislature and/or the Peninsula College Board of Trustees. In addition, all students pay a Student Technology Fee of \$8.00 per credit, and Student Self-Assessed Fees for Wellness (fitness) Center Fee of \$2.00 per credit and a Transportation Fee of \$16.00 a quarter.

## Opportunity Pathways

Through Opportunity Pathways, Washington State provides a variety of financial aid programs to help students and their families pay for college. For more information regarding state support visit:

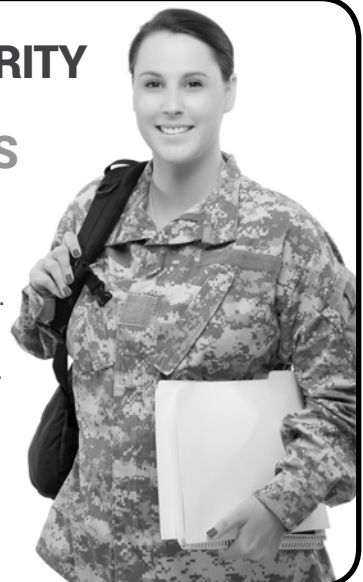

[www.sbctc.edu/resources/documents/colleges-staff/programs-services/student-services/2016-17-state-support-letter.pdf](http://www.sbctc.edu/resources/documents/colleges-staff/programs-services/student-services/2016-17-state-support-letter.pdf)

This information is provided by the Washington Student Achievement Council (WASAC) as required by RCW 288.10.044.

## VETERANS' PRIORITY REGISTRATION AND RESOURCES

Veterans and National Guard Members can participate in Veterans' Priority Registration. Peninsula College also offers additional veterans resources.
