Program Description

This certificate will provide students with basic digital photography skills. Students will learn the terminology, features, and concepts of digital photographic technology while formulating solutions for technical problems. Plan, compose, and photograph portraits. Adjust and control white balance, natural lighting, depth of field, and digital exposure methods. Students will manipulate photographic images with Adobe Photoshop.

Learning Outcomes

1. Demonstrate digital camera and photography proficiently in lighting, exposure, color, composition, and visual communication and artistry.
2. Apply aesthetic expression and enhanced photographic editing techniques using Photoshop to produce an online portfolio.
